Recidivism Rate in 2023

New Beginning Wholehearted Acceptance

Statistics of the Recidivism of Sentenced Macao Residents

Recidivism Rate in 2023

The Social Welfare Bureau and the Correctional Services Bureau have jointly formulated the "Report on the Recidivism of Sentenced Macao Residents" based on the statistics of Macao residents given prison sentences and non-custodial sentences and using the criteria of whether the sentenced Macao residents re-offended and were convicted again within two years of completion of their prison sentences or non-custodial sentences. Please refer to the following for details about the recidivism rate in 2023:

Recidivism rate of Macao residents given prison sentences

Total number of persons released from prison in 2023	Number of persons who re-offended within two years of release	Recidivism percentage
140	16 (10 persons were sentenced to imprisonment again)	11.4% (7.1% were sentenced to imprisonment again)

Recidivism rate of Macao residents given non-custodial sentences

Total number of persons who completed the relevant measure in 2023	Number of persons who re-offended within two years of completion of measure	Recidivism percentage
145	5 (2 persons were sentenced to imprisonment)	3.4% (1.4% were sentenced to imprisonment)
